- High clamping force for a firm fit of your stamps
- Strip division of your choice
- Extra strong glassine interleaves
- Exclusive hardcover binding in three modern colours
- Made in Germany from high quality materials

→ **Page 32**

QUALITY WITHOUT COMPROMISE

For almost five decades, the name Prinz has stood for high quality philatelic products. It all began in 1972 with the production of polystyrol stamp mounts and stockcards with polyester strips. In the following years, the range of accessories has continually expanded.

At the end of 1994, now in its second generation, the family run company, Prinz, built up a second business area in addition to manufacturing philatelic products, they started offering services to the philatelic trade. Album and catalogue manufacturers as well as postal administrations around the world are happy to take advantage of the range of complete solutions for the manufacture of their philately products.

The production of high-quality foil products is still the mainstay of the company. Polystyrol and polyester are free of harmful chemicals and thus enable postage stamps to be stored safely for decades. Another plus point of the Prinz products is the extra strong clamping force on foil mounts and stockcards, which securely holds the collector's items and prevents them from slipping or even falling out.

Throughout its history the company's philosophy remains unchanged: to continue offering an uncompromised commitment to high quality products and excellent customer satisfaction.

Mounts from polystyrol

Polystyrol stamp mounts have been proven to be the safest material to store your valuable stamps and documents. The extra strong clamping effect of the mounts will securely hold your stamps in place preventing them from slipping out.
Stamp mounts are available in transparent (clear) or black backed and Standard (top opening) or Gard (back opening). Both formats are identical in quality.
Of course, the materials are free of plasticisers and harmful chemicals. Polystyrol is a proven archival quality material that will not damage your stamps.

- Clear transparency – crystal clear view of the stamps.
- A special gluing on the back makes additional adhesives unnecessary.
- A reinforced cover foil with unsurpassable clamping force guarantees stability and safety for many years.

Stamp mount
Standard

Open on three sides, closed at the bottom

Stamp mount
Gard

Closed at the top and bottom. The split back allows the mount to be lifted up and the stamp to be conveniently inserted.

Sleeves from PP or hard PVC

These are the ideal protection for individual collector's items in different sizes and film qualities. Our sleeves are crystal clear, tear-proof, plasticiser and acid free. They are particularly suitable for storing picture postcards, letters of various sizes, stockcards, banknotes, and documents.

We differentiate between two different materials:

- Protective sleeves made of plasticiser-free hard film (PVC), which are particularly stable and crystal clear
- Protective sleeves made of the soft but nonetheless plasticiser-free polypropylene film (PP), slightly matt

Both materials offer secure protection for your documents.

Sleeves from PP or hard PVC

For postal stationery, postcards, stockcards, etc., crystal clear, tearproof, free of plasticisers. All pockets are open on the narrow side, except for those marked with an "L". These are open on the long side.

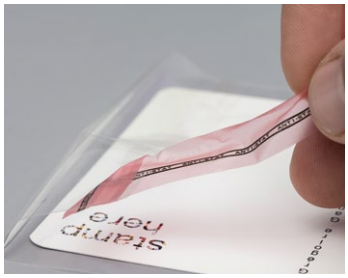
Sleeves from OPP

These sleeves are made of stretched polypropylene and are highly transparent. OPP is physiologically harmless, free of plasticisers and contains neither chlorine nor heavy metals. OPP sleeves are water-repellent and impress with their low water vapor permeability. It is a resource-saving and environmentally friendly material, and 100% recyclable.
Other formats and quantities on request.



Sleeves from OPP

For postal stationery, postcards, stockcards, etc., crystal clear, tearproof, free of plasticisers. All pockets are open on the narrow side and have a flap with an adhesive closure, exception: 286 x 230mm – without flap, open on the long side.

Sleeve format WxH + flap mm	for inserts up to mm	Quantity	Order-No.
90 x 152 + 25	84 x 148	50 pc.	**5221**
115 x 152 + 25	112 x 148	50 pc.	**5222**
115 x 160 + 25	112 x 156	50 pc.	**5223**
118 x 165 + 25	114 x 162	50 pc.	**5224**

286 x 230	282 x 224	50 pc.	**5226**

Glassine sleeves

Glassine is an environmentally friendly material and is made from cellulose. These bags are grease-proof, but not water-proof. The transparent paper is acid-free, ensures long-term storage and is recyclable.

Glassine sleeves

For postage stamps, blocks, postal stationery etc., transparent, acid-free. All sleeves are open on the broad side and have a flap.

Sleeve format WxH + flap mm	Quantity	Order-No.
80 x 58 + 35	50 pc.	**5231**
114 x 81 + 35	50 pc.	**5232**
162 x 114 + 40	50 pc.	**5233**

STOCKCARDS

- High quality
- Environmentally friendly card
- Excellent hold
- Contaminant-free storage

Premium stockcards

Our premium stockcards, whether black, coloured or white with black imprint, are manufactured in the well-known Prinz quality. This means that the card used for this is pH-neutral and the attached film strips are made of 100 µm polyester, absolutely free of plasticisers and acids.

A special feature of our premium stockcards is the maximum possible clamping force for a strong hold of the stamps and documents. In addition, your stamps are completely covered by foil and are therefore optimally protected. Due to the plasticiser-free polyester film, a safe storage time can be guaranteed for many years. Post administrations and auction houses in particular prefer this type of storage cards.

Premium stockcards black

Sturdy, black card, 270 gsm, pH-neutral, covered with polyester strips.

Accessories

You will find suitable storage boxes for your stockcards on page 41.

Premium stockcards

White stockcards made of 300 gsm card, printed, are ideal for labelling. This product is available in 3 different sizes, each with one or two polyester strips. The black background makes the stamps stand out very nicely. Yet there is still enough space for various notes, catalogue numbers or price quotations.
Both collectors and dealers prefer our premium stockcards, especially on exchange days and trade fairs.

Premium stockcards white with print

Stable, white carrier card, 300 gsm, pH-neutral, with a black background in the stamp area and line for labelling, covered with polyester strips.

Stockcards from PVC

These stockcards are made with transparent welded strips on one side in 6 different strip heights. The border prevents the stamps from falling out.
The stockcards are characterised by their particular robustness and are therefore very durable. With the 6 different variants, you have all the options to perfectly organise your stamps. We also offer suitable crystal-clear protective clamping sleeves, also made of hard PVC, as additional protection.

Prinz-System stock sheets

Prinz-System is synonymous with stock sheets and is the result of long and intensive product development. Prinz-System stock sheets in the format 215 x 280 mm are made from pH-neutral card and covered with plasticiser-free and acid-free polyester strips (100 µm). These do not contain any harmful chemicals. The extra-strong clamping force of the polyester strips ensures that stamps or other documents do not slip. In addition, the stamps are completely covered by the foil, so that a cover for further protection is not necessary. Storage for decades has been proven to be safe.

The **Prinz-Plus-System** also offers the option of writing-up stock sheets. The supplied perforated writing sheets can be written on by hand or by printer. The label is then inserted into the special strip on the sheet.

7286

6094 Plus-System

Prinz-System stock sheets black or white

Black or white album card, 270 gsm, pH-neutral, covered with clear polyester strips. Format W x H 215 x 280 mm, with universal or 7-hole punching, available single- and double-sided.

Texas stock sheets

Texas stock sheets are slightly larger than Prinz-System sheets (format: 267 x 295 mm) and thus offer a little more space for your collection.
They are the result of long and intensive development work. Texas stock sheets are made from pH-neutral card and covered with plasticiser-free and acid-free polyester strips (100 µm). These do not contain any harmful chemicals.

The extra-strong clamping force of the polyester strips ensures that stamps or other documents do not slip. In addition, the stamps are completely covered by the foil, so that a cover for further protection is not necessary. Storage for decades has been proven to be safe.

The 8 versions offered are available with both black and white card.

TEXAS STOCK SHEETS black or white

Black or white album card, 270 gsm, pH-neutral, covered with clear polyester strips.
Format W x H 267 x 295 mm, with universal punching, available single- and double-sided.

ProFil stock sheets from PVC

Of course, our PVC products are also made of high-quality materials and thus offer good protection for all philatelic items. Like all of Prinz's own products, these are also manufactured in Germany.
ProFil system stock sheets are available both in black and in a transparent version in the format 215 x 280 mm. The ten or twelve different variants offer space for all imaginable collectibles.

PVC stock sheets for letters, FDC and banknotes

For the storage of larger documents, such as letters, etc., a wide variety of stock sheets are available in 2 different formats. Thanks to the high-quality processed transparent hard PVC film sheets in 1–3-part design, you can clearly store your collectibles. A safe hold and protection is always guaranteed. Thanks to the black card insert, all sheets can be filled double-sided. If you remove the card insert, you can see your items from both sides.

PVC stock sheets

Exposafe Display

The high-quality and practical presentation system is available in 3 different versions – as a carousel, standing and wall model. All 3 stands are made of metal, have good stability and are equipped with pockets made of extra strong, crystal-clear hard PVC sleeves with a metal frame all around.
All stands are supplied with a variation of different Prinz-System stock sheets (single-sided). The pockets can be easily exchanged and can be secured against theft with a security lock.

The Exposafe stands are indispensable helpers for trade fairs or exchange days.

Exposafe Display

Presentation system for browsing through, with pockets to hold Prinz-System stock sheets, format W x H 215 x 280 mm (optional), with security lock.

Accessories

Matching Prinz-System stock sheets can be found on page 14.

Blank system Classic

The blank system Classic is something for individualists and offers the option of adding special items to your pre-printed album. You can easily expand your collection according to your own wishes (e.g. blocks, varieties, misprints or joint issues ...). Of course, you can also put together a complete album individually.
The blank sheets 0001 – 0003 in the format 267 x 295 mm are available in 3 versions: Unprinted, only with a frame or with a 5 mm grid field printed in a light shade, which makes it easier for you to divide the sheets.
The matching sheet protectors, item no. 0008 complete the system. The blank sheets 0004 and 0005 are available in a slightly smaller format of 215 x 280 mm.

With Prinz stamp mounts (p. 4/5) and the indispensable cutting devices (p. 36) you can turn it into an album according to your style.

Blank system Classic

Stable, white album card, 300 gsm, suitable for many pre-printed albums. Suitable protective sleeves made of PVC, free of plasticisers.

Blank system **com***page*

This system allows you to design your album sheets yourself. With a standard A4 printer, you can print out your creations and, with the help of the accompanying compage punched strip, transform them into a perfect album sheet – suitable for every standard binder.
Highest quality in A4 format, available in the paper tints white and chamois, colour-coordinated with the corresponding punched strip.
We recommend the Prinz Strip-mounter for easy and precise attachment of the compage punched strip.

Now it's up to you to let your creativity and imagination run free. Design your album pages with scans of postage stamp images and text of your choice.

Blank system **com***page*

Set consists of 25 card sheets, 170 gsm, format W x H 210 x 297 mm and 25 punched strips.

Sheet format WxH mm	Type	Quantity	Order-No.
210 x 297	Universal punching, white	1 Set	**0050**

RING BINDERS

Ring binder Montana

For the first time, we are offering ring binders with high-quality and sustainable linen cover as a new addition to our range. Choosing this material helps us to reduce the impact on the environment. The ring binder is delivered together with a matching, linen-covered cassette. A standard 4-D ring mechanism can hold up to 50 Prinz-System stock sheets. The ring binders are available in 4 colours.

Ring binder Montana

Format W x H 250 x 315 mm, standard 4-D ring mechanism (80-80-80), **including protective slipcase with linen cover**, for max. 50 sheets, format max. W x H 215 x 280 mm.

Type	Quantity	Order-No.
Ring binder Montana, dark grey	1 pc.	**7035.1**
Ring binder Montana, red	1 pc.	**7035.2**
Ring binder Montana, blue	1 pc.	**7035.3**
Ring binder Montana, green	1 pc.	**7035.4**

Ring binder Arizona

The high-quality ring binders of the Arizona series are made of hard-wearing, lightly structured PVC film and are available in 3 colours. An additional quality feature is the padded design of the cover.
A standard 4-D ring mechanism ensures a secure hold for up to 80 sheets, e.g. our Prinz-System or ProFil stock sheets.
With the larger capacity and the high-quality design, this binder offers an extremely convincing price-performance ratio.

Ring binder Arizona

Format W x H 265 x 310 mm, standard 4-D ring mechanism (80-80-80), for max. 80 sheets, format max. W x H 215 x 280 mm.

Ring binder Dakota

The ring binders of the Dakota series, formerly also known under the name "Prinz Duchy", like the above-mentioned binders of the Arizona series, are made of high-quality, hard-wearing PVC film, padded and available in 3 colours.
In contrast to the Arizona series, the Dakota series ring binders are equipped with a 22-ring mechanism for up to 40 Prinz-System sheets with universal punching.

Ring binder Dakota

Format W x H 260 x 295 mm, 22-ring mechanism, for max. 40 sheets, format max. W x H 215 x 280 mm.

Type	Quantity	Order-No.
Ring binder Dakota, wine red	1 pc.	**7022.2**
Ring binder Dakota, blue	1 pc.	**7022.3**
Ring binder Dakota, green	1 pc.	**7022.4**

Ring binder Colorado

Formerly known as the "Diamant" binder, this product is one of the most popular among collectors.
The padded binders made of foamed PVC film are equipped with a standard 4-ring mechanism. The smooth, shiny surface gives this article a noble character. The binders of the Colorado series are particularly suitable for storing our popular Prinz-System or ProFil stock sheets. These binders are available in 5 colours.

Ring binder Colorado

Format W x H 250 x 310 mm, standard 4-ring mechanism (80-80-80), **including protective slipcase**, for max. 50 sheets, format max. W x H 215 x 280 mm.

Type	Quantity	Order-No.

Ring binder Colorado, blue	1 pc.	**7029.3**
Ring binder Colorado, green	1 pc.	**7029.4**
Ring binder Colorado, brown	1 pc.	**7029.5**

Ring binder Kansas

The high-quality ring binders of the Kansas series are made of hard-wearing, grained PVC film and are available in 4 colours. An additional quality feature is the padded design of the cover. These ring binders are deliberately kept simple and are particularly suitable for storing Prinz blank sheets or the popular Prinz compage sheets. A standard 4-ring mechanism ensures a secure hold for up to 40 sheets.

Ring binder Kansas

Format W x H 300 x 315 mm, standard 4-ring mechanism (80-80-80), for max. 40 sheets, format max. W x H 270 x 300 mm, protective slipcase made of covered card in 4 colours.

Type	Quantity	Order-No.

Ring binder Texas

For the first time, we are offering ring binders with high-quality and sustainable linen cover as a new addition to our range. Choosing this material helps us to reduce the impact on the environment. The ring binders are offered together with matching, linen-covered slipcases and are available in 4 colours. A standard 4-D ring mechanism can hold up to 80 Texas sheets or Prinz blank sheets and Prinz compage sheets. The elegant embossing on the back gives these binders a particularly elegant touch.

Ring binder Texas

Format W x H 320 x 315 mm, standard 4-D ring mechanism (80-80-80), for max. 80 sheets, format max. W x H 267 x 295 mm, protective slipcase with linen cover in 4 colours.

Type	Quantity	Order-No.
Ring binder Texas, dark grey (1)	1 pc.	**3080.1**

Ring binder Texas, green (4)	1 pc.	**3080.4**
Protective slipcase, colour selection No. 1/2/3/4	1 pc.	**3081.No**

Ring binder Alaska

The ring binders of the Alaska series are made of high-quality, grained PVC film and thus give the binders a classic, leather-like character. An additional quality feature is the padded design of the cover.
These binders are suitable for storing stock sheets item no. 5025, 5026, e.g. for letters and item no. 5037, for postcards.
The 4-ring mechanism ensures a secure hold for up to 30 stock sheets. A pocket on the spine also offers the option of labelling the binders. The ring binders are available in 5 colours.

Ring binder Alaska

Format W x H 250 x 270 mm, 4-ring mechanism (45-65-45), for max. 30 sheets, format max. W x H 210 x 250 mm, protective slipcase made of covered card in 5 colours.

FDC binder long

Our FDC binder long is equipped with a 2-ring mechanism. It contains 20 clear foil pockets with a black interleaf for 40 letters. The smooth synthetic leather cover made of PVC with fine gold embossing is available in 3 colours.

FDC binder long – Set

Format W x H 300 x 155 mm, 2-ring mechanism, including 20 FDC clear foil pockets made of clear PP film, with black insert sheet (removable), suitable for 40 letters up to format max. 225 x 130 mm.

Type	Quantity	Order-No.
FDC binder long, 20 foil pockets, red	1 pc.	**2075.2**
FDC binder long, 20 foil pockets, blue	1 pc.	**2075.3**
FDC binder long, 20 foil pockets, green	1 pc.	**2075.4**
FDC foil pocket up to format max. 225 x 130 mm	10 pc.	**2076**

FDC binder standard

This binder is ideal for the safe storage of FDCs in sizes up to 190 x 125 mm. The padded cover is made of high-quality, leather-like plastic (PVC), which is easy to open thanks to the snap fastener. A pocket on the spine offers the possibility to label the binder.

FDC binder standard – Set

Format W x H 240 x 145 mm, 2-ring snap fastener, including 50 FDC foil pockets made of clear PP film, with black insert sheet (removable), suitable for 100 letters up to format max. 190 x 125 mm.

Type	Quantity	Order-No.

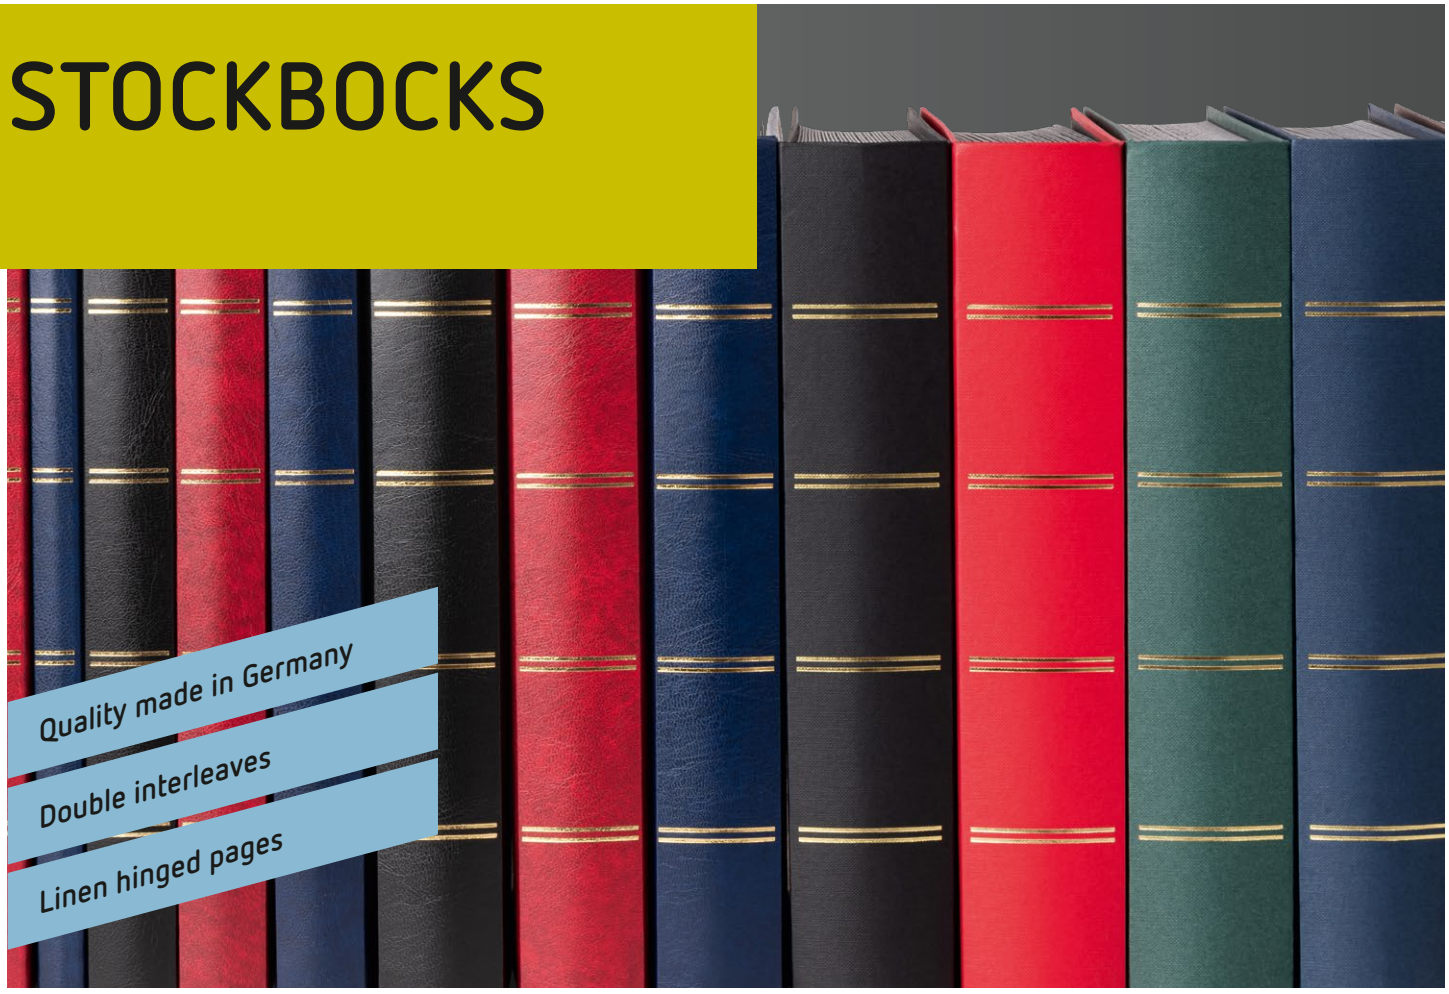
STOCKBOCKS



Classic-Line stockbook

Our Classic-Line series of stockbooks are made from specially selected materials. All versions in the 230 x 305 mm format are equipped with a double linen hinged and double glassine interleaves.
The smaller books in the format 165 x 220 mm are offered with a single hinge and one glassine interleaf.
The books with black stock sheets are made in the format 230 x 305 mm with 9, in the format 165 x 220 mm with 6 transparent strips.
The books with white stock sheets, on the other hand, are equipped with 10 glassine strips in the 230 x 305 mm format and 6 glassine strips in the 165 x 220 mm format.

Stockbook Skyline Gold

Prinz combines the advantages of the classic stockbook with those of a high-quality ring binder system. Skyline Gold is compact and bound in a high-quality hardcover binding in dark grey, berry or ocean blue and subtle finishing with partial UV varnish. Thanks to the spiral binding, the inside pages made of sturdy, black card can be easily turned over and opened completely. Extra strong glassine interleaves protect the foil strips and avoid static build up.
For the first time, Skyline Gold enables a division of 1 to 8 strips. This means that you have eight stockbook variants with strip heights from 27 to 242 mm. Choose the right Skyline Gold stockbook that best fits the stamp sizes in your collection so that your stamps are completely covered and therefore well protected.
The high-quality insides made of pH-neutral card are provided with plasticiser-free polyester strips and are therefore absolutely harmless for postage stamps. The strips are crystal clear and have an incomparable clamping effect. Your stamps are shown to their best advantage in terms of colour, sit perfectly and are optimally stored.

Hardcover with partial UV varnish

Modern spiral binding

Practical elastic strap as a closure

Stockbook Skyline Gold

Hardcover in 3 different colours, size W x H 240 x 285 mm, 20 pages / 40 sides, made of black card, 270 gsm, extra thick glassine interleaves, black spiral binding, elastic strap, 8 different sheet configurations with clear polyester strips available.

Stockbook Skyline Silver

Compared to the Skyline Gold series, these are somewhat smaller stock books, also with spiral binding, in the formats 175 x 215 mm with 5 strips, or 160 x 105 mm with 2 strips. The stock books Skyline Silver are equipped with a soft cover and are available in 3 colours.
These products are particularly popular with newcomers. Especially as a selection book for e.g. exchange days, these two stockbooks offer an indispensable aid.

PHILATELY COLLECTOR'S ACCESSORIES

Cutters

Prinz cutters are an indispensable help for collectors requiring to cut their Prinz strips to size. The mm-gauge and sliding bar allow for quick cutting to the exact size required, and the special stainless steel blade sharpens itself with each cut. The robust stand and strong cutter-handle are further signs of the top quality expected by our customers. The two models differ only in cutting size.

Super Safe watermark fluid, 1 bottle 250 ml	1 pc.	**2045**

Storage boxes for stockcards

Prinz storage boxes offer optimal space for the stockcards offered in this program and are available in 3 different versions. They work like the good old card index box. For the storage boxes, order no. 5085 + 5090, we recommend the premium stockcards order no. 810 – 850 and order no. 950 + 960 on pages 9 and 10. The PVC cards, order no. 5091 – 5096, from page 12 as well as the auction cards order no. 600 + 650 from page 13, all in the formats 210 x 148 mm, find space.
For the Prinz storage box order no. 5086, we recommend the slightly smaller premium stockcards order no. 710 – 730 on page 9, in the format 148 x 112 mm.

Flexible diameter

Patent case

Patent cases do not have a prefabricated recess and can therefore be used very individually. They are made of hard plastic and are available in different sizes. By pushing in the coin, a perfectly fitting recess with a secure hold is created. The patent cases are available in the colours: blue, red, white – optionally with a blue or red insert.

Patent case

1. Align and press in.

2. The memory foam retains its shape.

3. The collector's item fits perfectly.

Coin cases Standard

The plastic cases offered in the colours blue or red are available for coins of different sizes. The cases, all 60 x 60 mm in size, are made of hard plastic and are available with prefabricated recesses with a diameter of 16 - 41 mm. The inlays are made of blue or red velvet. This product is suitable for demanding storage and offers safe protection during shipping.

Coin cases Standard

Plastic case 60 x 60 mm, with velvet inlay, please add the desired colour code 2 (red) or 3 (blue) to the order number.

Type	Quantity	Order-No.
