

PRINZ STAMP MOUNTS & PRODUCTS ORDER FORM - FEB 2020

Standard Top Opening Stamp Mounts

Designed to allow you to safely mount your mint stamps without the need to affix anything to the stamp. Stamp mounts have an adhesive backing, which only need to be lightly moistened to affix to your album pages. Mounts are available in black backed or clear backed, in cut to size or in strips for you to cut to size using a suitable cutter. Prinz stamp mounts have an undistorted crystal clear top foil and use archival safe materials. To help secure larger items the stamp mounts listed for blocks will have both a top and bottom seam - so are only open on the side.

Gard back Opening Stamp Mounts

The Gard style mount is sealed on both the top and bottom of the mount and is split in the middle of the back of the stamp mount. This style is designed to hold the stamp, block or larger item much more securely - ideal for heavier items, you only need to lightly moisten the top half of the backing.
